

How to make a snowman on Drawz it

By: Justin 1B

Be sure to read the whole step before starting the step.

1. First you need to make grey backgrounds with 2 circles that are 1 and $\frac{1}{2}$ in. and another circle that is 1 in. tall with a black outline and white fill with 1 percent outline size stack them on top of each other.
2. Now for the arms, click the line shape and make it brown with 24 outline size, make the arms look like crosses and be sure to make two crosses. Make the left point of the cross just barely touching the middle circle. The lines going up and down need to be $1\frac{1}{2}$ in. on both sides. The lines going left and right need to be 1in. and need to be going through the line going up and down.
3. Now the hat, make a line that is black with 25 outline size flat on the snowman's head try to make it as straight as possible, now the top put a lime green square with 25 outline size and 0° corner radius, try to make it taller than longer and put as close to the middle as possible.
4. Now the face put a blue face stamp on the top circle with 7 stamp size.
5. Now the buttons make 2 black 2 in. downward pencil marks with line size 9 on the middle circle try to make them as straight as possible, put them in the middle circle, make them $\frac{1}{2}$ in. and they need to be on top of each other.
6. The most important thing, the nose! Make an orange line with 25 outline size, now put it in the middle of the smiley face coming diagonally at 110°

Make sure none of the shapes are off the page so you may have to delete and remake!
